TÄNK OM.

Tänk om det bästa ännu inte har hänt? Vi tror att allt kan bli bättre om man är vågad och experimenterar med ett syfte.

Vår whisky destilleras under vakuum för att förstärka smaken, en teknik som bara används av ett fåtal andra maltwhiskydestillerier. Och när det gäller ingredienser och lagringsmetoder fokuserar vi på smak istället för tradition.

Vi hoppas att du vill följa med oss när vi arbetar för ett annorlunda sätt att göra whisky. Vi frågar oss själva: Tänk om?

Ron Sostenible

THE CONSCIOUS CHOICE

Ron Sostenible means “sustainable rum” in Spanish, and the base of this series is a wish to create the most sustainable rum in the market. All products in this series are produced with renewable energy in the Dominican Republic from the sugarcane that surrounds the distillery, creating the basis of these amazing rums with a conscious mindset. This series is based on a pure juice made from pressed sugarcane and not industrial or processed molasses. In our view this makes a world of difference in both taste and quality.
