Bosjökloster

Often called the “Pearl of the Ring Lakes”, this charming castle is situated just two and a half hours from Rødby and Gedser, in the very heart of Skåne.

Møn is great – Travel guide Bent

From the meeting point at the harbor of Stege you can take a walk through the medieval trading village with several trading houses.

Afterwards you drive about 6 km to Elmelunde or Keldby Kirke to view the not restored lime paintings of the "Elmelundemeister" from the year 1480 or the house of the film actress Asta Nielsen.

Møn's 100-meter high chalk cliffs offer a unique view. A walk (about 600 meters) through the forest leads to the viewpoint "Forchhammers Punt", where you can see in clear weather, the island of Rügen and Hiddensee 50 km east. Then you can drive along the coast to Liselund. Schloss Liselund is the smallest in the world with its straw roof dating back to 1797. A walk through the park is like a treat for the soul. There is a deciduous forest, an English-style park and a mountain landscape like in Norway.

Tivoli

Tivoli Gardens was founded in 1843 and has become a national treasure and an international attraction.

Fairytale writer Hans Christian Andersen visited many times, as did Walt Disney who even found the inspiration to his own Disney World here. When the garden was founded it was placed outside the city's moats, but today it's located right next to the Central station and within walking distance of City hall.

Part of Tivoli Gardens' secret is that there is something for everyone. The scenery is beautiful with exotic architecture, historic buildings, and lush gardens. At night, thousands of colored lights create a fairytale atmosphere that is completely unique. It has quirks and charm, and details for you to discover – you might catch a glimpse of the guinea fowls or peacocks running freely through the gardens.
